## **CPH2025 Climate Plan**

Hans Chr. Christiansen City of Copenhagen N 3 5 4 \*\*\*\*\* City of Copenhagen

CPH2025 Climate Plan

#### Adoption of the carbon neutrality target

- The City of Copenhagen adopted a Climate Action Plan in 2009 with a target of reducing CO<sub>2</sub>-emissions with 20% in 2015 and a vision of becoming carbon neutral by 2025.
- The CPH2025 Climate Plan was adopted in 2012 with the target of a carbon neutral capital in 2025.

#### Plans towards 2025 and perspective for 2050

City of Copenhagen

CPH2025 Climate Plan

### Four pillars in the climate plan

#### **CO<sub>2</sub> emissions in Copenhagen**

\*Before RE-crediting, which involves renewable energy production within the city or outside the city where the city or the city's utilities own the facilities.

#### Background

Municipal plan 20 9: by 2 "before the next planning period (ie. latest by 2023) ... a

latest by 2023) ... a new climate agreement ... with specific goals for 2030 and 2035." Co-create Copenhagen: Fossil-free Copenhagen latest by 2050

> Citizen consumptionbased CO<sub>2</sub>emissions cut in half by 2035

CO<sub>2</sub>-emissions from public procurement cut in half by 2030

> Maintain carbonneutrality in 2025 and introduce climate-positivity while phasing biomass out by 2035

7

#### **Next steps**

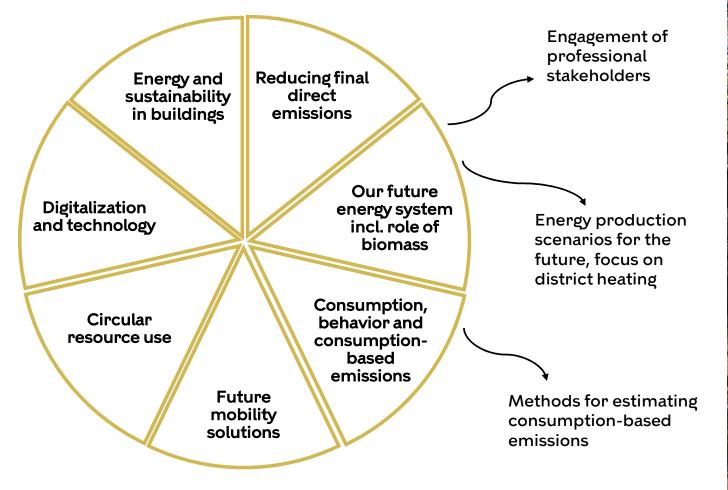

Plan part 1: Maintain carbonneutrality, introduce climate-positivity

Plan part 2: Reduce consumptionbased emissions A baseline analysis of Copenhagen's CO<sub>2</sub>emissions, consumptionbased and territorial Engaging citizens, companies, experts, other cities in developing a vision and a plan with initiatives

Scenarios for each sector and goal, showing potential reductions and realistic steps along the way

One plan in (potentially) two parts City of Copenhagen

#### Potential elements in a plan

# **Expected focus areas in connection with the 100 Climate Neutral Cities**

- Climate City Contract linked to the coming climate Plan for City of Copenhagen
- Focus on: Citizen involvement, scope 3 (consumer based emission), energy efficiency
- Awaiting more information from NZC Platform about details
- An ongoing focus on funding opportunities for projects etc.
